*The Complete Guide to Becoming an English Teacher* 2012 at first glance a guide to english literature may seem to be no more than a short bibliography of english literature with perhaps rather more extensive and certainly more outspoken comments on the principal editions commentaries biographies and critical works than bibliographies usually provide but it is something more this guide contains long inter chapters that provide reinterpretations of the principal periods of english literature in the light of modern research as well as two final sections summarizing in unusual detail the literary criticism that exists in english and recent scholarship in the field the purpose of this book then is to provide the reader with convenient access to a disciplined study of the texts themselves this guide proposes itself as a new kind of literary history the conventional history of literature has often tended to become a substitute for the reading of the literature it describes the better the history the greater the temptation to substitute it the present combination of reading lists and inter chapters cannot be a substitute for anything else meaningless as literature in themselves they nevertheless provide the necessary preliminary information to meaningful reading since oddities of arrangement derive from these assumptions the authors are not arranged alphabetically instead there are chronological compartments with the divisions circa 1500 1650 and 1800 in which authors succeed each other in the order of their births this pioneering handbook is primarily a bibliographical laborsaving device it is meant mostly for students and the general reader in that it stops where original research by the reader is expected to begin however the last chapter on literary scholarship is devoted specifically to the research specialist and provides indispensable equipment for the reader there is also a general section on literary criticism which will be of use to all

*Doing English Language* 1933 the oxford guide to world english takes up where its mother book the oxford companion to the english language left off organized by continent there are chapters on europe the americas africa asia and australasia oceania and antarctica tom mcarthur covers the world s many varieties of english in an interconnected way and notes the ties that bind

varieties and regions that are geographically far apart as with west african english and african american english scots ulster scots the scotch irish migrations to appalachia in the us and country and western music and aspects of australian new zealand south african and falklands english as southern hemisphere varieties the end result is a book that while invaluable to the specialist is accessible and appealing to the non specialist and covers a vast spread of englishes from brummie cockney estuary and rp in the uk to new york and new orleans speech in the us and such other varieties as indian english maori english and west african pidgin this hugely comprehensive work provides a fascinating and novel survey of english as both a pre eminent standard world language and a family of vigorously diverse regional varieties
