texts and interviews from the period that saw the publication of deleuze s major works people tend to confuse winning freedom with conversion to capitalism it is doubtful that the joys of capitalism are enough to free peoples the american revolution failed long ago long before the soviet one revolutionary situations and attempts are born of capitalism itself and will not soon disappear alas philosophy remains tied to a revolutionary becoming that is not to be confused with the history of revolutions from two regimes of madness covering the last twenty years

of gilles deleuze s life 1975 1995 the texts and interviews gathered in this volume complete those collected in desert islands and other texts 1953 1974 this period saw the publication of his major works a thousand plateaus 1980 cinema i image movement 1983 cinema ii image time 1985 all leading through language concept and art to what is philosophy 1991 two regimes of madness also documents deleuze s increasing involvement with politics with toni negri for example the italian philosopher and professor accused of associating with the red brigades both volumes were conceived by the author himself and will be his last michel foucault famously wrote one day perhaps this century will be deleuzian this book provides a prodigious entry into the work of the most important philosopher of our time unlike foucault deleuze never stopped digging further into the same furrow concepts for him came from life he was a vitalist and remained one to the last this volume restores the full text of the original french edition
