airborne operations have often been called a vertical envelopment and therein lies one of the best descriptions of their value the essence of an envelopment is to pin the enemy in place so that it can be destroyed a strong enemy force to one s rear disrupts supplies and communications and makes one more vulnerable to an attack from the front it also has a major psychological impact to an aggressor the value of airborne troops used properly far outweighs their numerical strength bruce quarrie s engaging text tells the story of the german airborne troops of the second world war

in medieval germany violence was accepted far more than in other kingdoms kings were recognised as guardians of order but this had

its limitations lords expected to use force to secure their rights or win an argument when peaceful methods were not sufficient christopher gravett does a fine job of examining the organisation and campaigns of german medieval armies from 1000 1300 in a volume containing plenty of photographs and illustrations including eight full page colour plates by graham turner
