Spectrum Word Study and Phonics, Grade 5 2014-08-15

this volume examines the development of guangdong especially the pearl river delta throughout the era of china s economic reforms and opening to the external world from 1978 till now it analyzes the evolution from a labour intensive export oriented manufacturing base to a heavy

industry based economy then to a high tech manufacturing center cum regional business services center this book focusses on the planning and development strategies of the guangdong leadership and its local counterparts their interactions with the central leadership the learning and adaptation processes involved by stages and the problems and challenges ahead the author adopts a chronological approach thus enabling the readers to study the development processes in detail taking into consideration the benefits offered by as well as the crises in the domestic and international environment

Education and Society in Post-Mao China 2017-06-26

china has huge ethnic minorities over 40 different groups with a total population of over 100 million over time china s policies towards minority languages have varied changing from policies which have accommodated minority languages to policies which have encouraged integration at present integrationist policies predominate notably in the education system where instruction in minority languages is being edged out in favour of instruction in mandarin chinese this book assesses the current state of indigenous and minority language policy in china it considers especially language policy in the education system including in higher education and provides detailed case studies of how particular ethnic minorities are being affected by the integrationist or assimilationist approach

The Far East, Annotated List of Available Units, Curricular Material Dealing with the Far East. Rev. Apr. 1944 1944

this book examines language policies and practices in schools in regions of china populated by indigenous minority groups it focuses on models of trilingual education i e education in the home language putonghua mandarin chinese the national language and english the main foreign language special attention is given to the study of the vitality of the minority home language in each region and issues relating to and the effects of the teaching and learning of the minority home language on minority students acquisition of mandarin chinese and english and on their school performance in general the book also examines the case of cantonese in guangdong

where the local chinese dialect is strong but distant from the mainstream language putonghua it takes a new approach to researching sociolinguistic phenomena and presents a new methodology that emerged from studies of bi trilingualism in european societies and was then tailored to the trilingual context in china the methodology encompasses policy analysis and community language profiles as well as school based fieldwork and provides rich data that facilitate multilevel analysis of policy in context

OECD Reviews of Regulatory Reform: China 2009 Defining the Boundary between the Market and the State 2009-05-05

rapid economic growth in the world s most populous nation is leading to widespread soil erosion desertification deforestation and the depletion of vital natural resources the scale and severity of environmental problems in china now threaten the economic and social foundations of its modernization using case studies morton analyzes the relationship between international and local responses to environmental problems in china challenging the prevailing wisdom that weak compliance is the only constraint upon local environmental management in china it advances two interrelated discussions first it constructs a conceptual framework for understanding the key dimensions of environmental capacity this is broadly defined to encompass the financial institutional technological and social aspects of environmental management second the book presents the results of an empirical inquiry into the implementation of donor funded environmental projects in both china s poorer and relatively developed regions by drawing upon extensive fieldwork it seeks to explain how and under what conditions international donors can strengthen china s environmental capacity especially at the local level it will be of interest to those studying chinese politics environmental studies and international relations

The Development of Guangdong 2018-06-27

china s future is arguably the most consequential question in global affairs having enjoyed unprecedented levels of growth china is at a critical juncture in the development of its

economy society polity national security and international relations the direction the nation takes at this turning point will determine whether it stalls or continues to develop and prosper will china be successful in implementing a new wave of transformational reforms that could last decades and make it the world's leading superpower or will its leaders shy away from the drastic changes required because the regime's power is at risk if so will that lead to prolonged stagnation or even regime collapse might china move down a more liberal or even democratic path or will china instead emerge as a hard authoritarian and aggressive superstate in this new book david shambaugh argues that these potential pathways are all possibilities but they depend on key decisions yet to be made by china's leaders different pressures from within chinese society as well as actions taken by other nations assessing these scenarios and their implications he offers a thoughtful and clear study of china's future for all those seeking to understand the country's likely trajectory over the coming decade and beyond
