Better Aid Aid Effectiveness A Progress Report on Implementing the Paris Declaration 2009-02-02 what does us aid buy in the middle east drawing on extensive primary source research this book examines the role and consequences of us aid to three countries in the middle east the author argues that the political survival strategies of incumbent leaders in egypt israel and jordan shaped not only the type of aid that these countries received from the us but also its developmental and geopolitical impact leaders who relied heavily on distributing selective benefits to their ruling coalitions were more likely to receive forms of us aid that complemented their distributive political economies and undermined the state s developmental capacity which simultaneously rendered them more dependent on us resources and more likely to cede fragments of their sovereignty to their major donor non distributive leaders however could reap the full benefits of highly discretionary and technologically sophisticated aid incorporating it into developmental policies that rendered them progressively less dependent on washington and better able to say no when it was in their best interest
