Housing in New York: Study of City 1979 housing in new york provides accurate current and easily understood information on new york's supply and location of housing including data on rents and housing conditions and on housing needs including information on the incomes socioeconomic characteristics and housing expense burdens of the city's nearly two million renters wherever possible the author compares current and past housing and market conditions to help gauge whether things are improving or getting worse the study begins with a review of the major findings from the 1984 housing and vacancy survey the author summarizes recent changes in the size and composition of the city's population and housing stock emphasis is on changes in the control status of rental housing and the growth in cooperative ownership since 1981 and on changes in the racial and ethnic mix of new yorkers stegman offers a thorough analysis of rental vacancies in new york including the physical condition of the city's occupied rental stock he deals in considerable detail with rent levels and with how rents have changed since 1981 for various types of households he also examines how well owners and renters have fared in their battle to stay ahead of the rising cost of living in the final chapter stegman analyzes changes in new construction activity and other sources of housing supply including the return to the occupied stock of units that had been declared losses at the time of the 1981 housing and vacancy survey he concludes with an analysis of the size composition location and occupancy characteristics of the city's in rem housing inventory this detailed study is invaluable in understanding the continuing debate concerning housing needs and conditions and the appropriate public responsibilities to meet those needs

The New York City Infant Day Care Study 1992 this guide to the study and use of military history is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study it is not a work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past

New York-New Jersey Highlands Regional Study 1978 excerpt from bar examinations new york and courses of law study it will serve as an

purpose to explain or justify the changes they were asked for by the profession and granted by the court and it will be sufficient to call them generally to the attention of those who seek admission to the bar in new york on examination no changes have been made in the preliminary educational qualifications it is still the rule that no person can begin the study of the law unless he is eighteen years of age and has earned a law student s certificate or is a graduate of a college or university concerning the particulars of both of those latter requirements application should be made to the commissioner of education capitol albany n y about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Hudson River Project, Northeastern U.S. Water Supply Study, New York Metropolitan Area 1990 an attempt to coordinate the internal economic history of new york with the crucial events in national life during the period

The Northern Forest Lands Study of New England and New York

1992 increasing american fear about terrorism environmental catastrophes pandemics and economic crises has fueled interest in prepping confronting disaster by mastering survivalist skills this trend of self reliance is not merely evidence of the american belief in the power of the individual rather this pragmatic shift away from expecting government aid during a disaster reflects a weakened belief in the bond between government and its citizens during a time of crisis this ethnographic study explores the rise of the urban preppers subculture in new york city shedding light on the distinctive approach of city dwellers in preparing for disaster with attention to the role of factors such as class race gender and one s expectations of government it shows that how one imagines doomsday affects how one prepares for it drawing on participant observation the author explores preppers views on the central question of whether to bug out or hunker down in the event of disaster and examines the ways in which the prepper economy increases environmental
