Implementation of Law in the People's Republic of China

2021-08-04

china after some twenty years of reform is no longer a country without law indeed one may legitimately complain that there are too many laws that are changing too rapidly however law acquires no life nor performs its intended social functions without proper implementation and enforcement here few people chinese or foreign are content with the general situation of implementation of law in china the problems and difficulties in implementing and enforcing laws and regulations are reported and discussed in the various forums of the chinese media almost on a daily basis and often reported in western media also academics in china are filling the pages of various legal journals with their diagnoses and analyses of the causes of and solutions to the lack of proper implementation of law and legal regulations and policy measures are being issued to deal with these problems and to overcome the difficulties the future of the rule of law in china as we are so often reminded by scholars of chinese politics and law largely depends on the proper implementation and enforcement of law this is a book about law in action in china that is it focuses on the administration of the law as a process through which law in the books is put into action and hence is made to perform its intended social functions it deals with the process the institutional settings the players and the political economic social and cultural settings the factors involved in the administration of law in china throughout the book we will see a variety of problems and difficulties involved in implementing and enforcing laws and regulations that are identified and analyzed by the contributors we will also see analyses on legal regulations and policy measures that have been issued to rectify the many identified problems to raise the standard of actual implementation of law and to improve the functioning of the various law implementing enforcing authorities additionally the book provides various case studies on implementation of law in china the present book we believe is among the first collective efforts at a systematic and comprehensive study of the implementation of law in china and we hope that it will stimulate many more such studies studies on the actual operation and impact of law on society and on individuals

The Law of Political Economy

2020-04-23

political economy themes have directly and indirectly been a central concern of law and legal scholarship ever since political economy emerged as a concept in the early seventeenth century a development which was reinforced by the emergence of political economy as an independent area of scholarly enquiry in the eighteenth century as developed by the french physiocrats this is not surprising in so far as the core institutions of the economy and economic exchanges such as property and contract are legal institutions in spite of this intrinsic link political economy discourses and legal discourses dealing with political economy themes unfold in a largely separate manner indeed this book is also a reflection of this in so far as its core concern is how the law and legal scholarship conceive of and approach political economy issues

The New Legal Realism: Volume 1

2016-05-03

this is the first of two volumes announcing the emergence of the new legal realism as a field of study at a time when the legal academy is turning to social science for new approaches these volumes chart a new course for interdisciplinary research by synthesizing law on the ground empirical research and theory volume 1 lays the groundwork for this novel and comprehensive approach with an innovative mix of theoretical historical pedagogical and empirical perspectives their empirical work covers such wide ranging topics as the financial crisis intellectual property battles the legal disenfranchisement of african american landowners and gender and racial prejudice on law school faculties the methodological blueprint offered here will be essential for anyone interested in the future of law and society

The Mind and Method of the Legal Academic

2012-01-01

jan smits has long been one of the most interesting and original authors on european private law theory now he offers his views on legal scholarship and they are as original as they are thought provoking his plea for a legal scholarship that maintains its identity vis à vis neighboring disciplines without collapsing into doctrinairism is bound to yield lively discussions and hopefully will help re establish a proper place for legal scholarship in europe and beyond ralf michael's duke university us 'the mind and method of the legal academic' is a valuable contribution to the discussion on legal methodology and legal theory which offers an acute insight in contemporary academic discussions smits provides us with fresh ideas as to the non importance of social sciences for law comparative law and what makes an academic discipline he does so in a clear style and barely hundred pages text it therefore can be highly recommended to all students of jurisprudence ewoud hondius university of utrecht the netherlands 'a wonderful little book which explains to newcomers and old hands alike what legal academics are doing how they are doing it how they ought to be doing it what kind of research environment they would need and how all this should affect their teaching smits brings comparative and interdisciplinary approaches home to the core of scholarly legal work gerhard dannemann centre for british studies berlin germany 'this book is a wide ranging and bold exploration of the nature of legal scholarship lucid and learned smits draws upon a variety of sources to recommend a multi faceted approach to the normative dimension of law as such it provides a theoretical base for comparative law but also for any inquiry into what law or legal principle is appropriate for a given problem or situation all those engaged in critically examining the law will benefit from its insights ' anthony ogus university of manchester uk and university of rotterdam the netherlands 'academic debate over law and legal scholarship has placed legal research and legal education under pressure jan smits' book is intellectual self defence of legal

scholarship tailored for the needs of tomorrow the mind and method of the legal academic is fluid creative and original makes wonderful reading for those who are concerned about the future of legal research and legal education in a globalized world Í jaakko husa university of lapland finland in a context of changing times and current debate this highly topical book discusses the aims methods and organization of legal scholarship jan smits assesses the recent turn away from doctrinal research towards a more empirical and theoretical way of legal investigation and offers a fresh perspective on what it is that legal academics should deal with and how they should do it the book also considers the consequences which follow for the organization of the legal discipline by universities and uses this context to discuss the key questions of the internationalization of law schools quality assessments legal education and the research culture being the first book to address the aim and goals of legal scholarship in an international context this insightful study will appeal to academics graduate students researchers and policymakers in higher education

The Science of Law and Lawmaking, Being an Introduction to Law

2015-07-03

excerpt from the science of law and lawmaking being an introduction to law a general view of its forms and substance and a discussion of the question of codification this book is an attempt to make clear to the average reader some of the truths of law and jurisprudence the object is to introduce laymen to a true conception of the system of law under which they live a system whose rules constitute bonds restraining their activities less palpable yet no less effective than the iron bars of the captive s cage it is a curious fact that no work exists in which the general outlines of legal systems are explained in popular terms so as to be intelligible to the ordinary mind not versed in the technicalities of the subject and it is especially strange that no work exists which explains to such readers and to the law student just beginning his course the fundamental truths contained in the two forms of expression in which it is possible to embody a system of law yet a complete knowledge of these fundamental truths lies at the base of the correct decision of a question of great importance now agitating the legal world and this question the question of codification is one whose decision will rest more in the hands of laymen than in the hands of lawyers these facts suggested to the writer the idea of a book which in the first instance should be an introduction to the study of the law and in the second instance should use this introduction as a groundwork on which to build up an argument on codification intelligible to the lay mind about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Law without Force

2018-01-16

law without force is a landmark in political and social philosophy it proposes nothing less than a completely new basis for international law as relevant today as when it was first published nearly sixty years ago it commands the attention of all concerned with what the future may bring to the law of nations the great scope of niemeyer s undertaking draws respect even from those who disagree with his challenging analysis of the historical past and his suggestions for the future of international law in his new introduction michael henry observes that law without force provides us with a foundation of niemeyer s thinking published in 1941 when hitler was swallowing up europe this volume shows how a first rate mind grappled with a legal historical social and ultimately metaphysical problem it provides in detail the reasoning behind niemeyer s rejection of a foreign policy based on morality and his distinction between authoritarian and totalitarian governments and it provides us with the first stage of his lengthy and prodigious effort to understand this terrible century it is a book that no serious student of niemeyer can afford to ignore at the very heart of the author s vigorous discussion may be found his rejection of a moral basis for international law and his suggestion that a functional basis should be substituted for it the book incisively reviews the relation between traditional international law and the changing structure of international politics concluding that the traditional system of law has operated as an agency of disharmony and conflict after an investigation of the traditional legal system the author then asks what type of law fits the social structure of this modern world the answers are presented in

the last part of the book as neimeyer offers his case for a functional system of law divorced from moral exhortations or appeals to shattered authority philosophy sociology and legal theory are brilliantly interwoven in this volume which will engage serious readers interested in political and social theory

Law and Economics from an Evolutionary Perspective

2016

the global financial crisis of 2007 2008 was a wake up call to all who study and practice in the field of law and economics traditional approaches are simply inadequate for understanding the co evolution of the economic and legal systems and that inadequacy can result in missed opportunities to warn of impending social harm atkinson and paschall demonstrate the value of an alternative approach law and economics from an evolutionary perspective that builds on the work of john r commons a leading figure in the field nearly a century ago in the process they offer an eye opening historical account of the role of the state in the economy and provide a vital starting point for future policy discussions charles j whalen author of financial instability and economic security after the great recession an indispensable history of business law and regulation alongside a powerful theory of law and the courts glen atkinson and stephen p paschall give us an evolutionary casebook for the twenty first century deeply rooted in the ideas of veblen commons and other masters of the tradition james k galbraith the university of texas at austin the language of court documents is notably difficult to understand for people with no legal training the present volume a product of fruitful collaboration between a university professor and a lawyer offers valuable assistance in translating us supreme court decisions made in the span of the nineteenth and twentieth centuries with respect to economic disputes into the language spoken by evolutionary and institutional economists as the authors persuasively show law and economics co evolve a much needed follow up to and development of john commons s legal foundations of capitalism anton oleinik memorial university of newfoundland and labrador canada and the central economics and mathematics institute russia law and economics are interdependent using a historical case analysis approach this book demonstrates how the legal process relates to and is affected by economic circumstances glen atkinson and stephen p paschall examine this co evolution in the context of the economic development that occurred in the nineteenth and early twentieth centuries as well as the impact of the law on that development specifically the authors explore the development of a national market the transformation of the corporation and the conflict between state and federal control over businesses their focus on dynamic integrated systems presents an alternative to mainstream law and economics the authors apply john r commons s approach to three main law and economics issues the changing relationship between corporations and the state the application of the commerce clause and the fourteenth amendment of the u s constitution to state and federal regulation of business and the relationship of antitrust law to industrialization they provide a valuable linking of law with changing economic circumstances such as antitrust policy changes and the development of the corporate form this analytical approach to the practice of law and economics will be of interest to researchers students and faculty in law and economics economic history constitutional law economic regulation public policy and the sociology of law business students and researchers will also find value in this book s presentation of court decisions and exploration of economic development

Law and Society in England 1750-1950

2019-10-31

law and society in england 1750 1950 is an indispensable text for those wishing to study english legal history and to understand the foundations of the modern british state in this new updated edition the authors explore the complex relationship between legal and social change they consider the ways in which those in power themselves imagined and initiated reform and the ways in which they were obliged to respond to demands for change from outside the legal and political classes what emerges is a lively and critical account of the evolution of modern rights and expectations and an engaging study of the formation of contemporary social administrative and legal institutions and ideas and the road that was travelled to create them the book is divided into eight chapters institutions and ideas land commerce and industry labour relations the family poverty and education accidents and crime this extensively referenced analysis of modern social and legal history will be invaluable to students and teachers of english law political science and social history

Fundamentals of American Law

1996

2016-04-03

4/16

famous crimes stories of law and
order in minnesota

the american legal system today is the most significant in the world yet until the publication of fundamentals of american law there has been no book that provides both the basic rules on the theoretical understanding necessary to comprehend this book is not simply the work of a single author but a collection of especially written essays each by an expert in the field all of whom are on the faculty of new york university school of law which is recognized as one of the elite law schools in america and which offers this book as an element of its unique global law school programme the book is written specifically for foreign lawyers and law students who have a need to deal with american law generally but are not seeking to become specialists in any one area for them it is vital to understand the basic principles of a wide range of american legal fields so they can act as informed intermediaries between their public or private clients and their american counterparts the book not only provides the reader with a solid foundation in american law but will also serve as a basic reference book for the fundamentals even as some of the details change over the years although initially conceived to fill a void for foreign lawyers the book is also ideally suited for others who have a significant need to understand the basic principles of american law and to interact with american lawyers for this reason it will be an ideal course text for students of business accountancy political science or public administration where the enquiring student will constantly find intersections with the law the book is more than a compendium of legal principles each chapter explains not only what the law is but why it is that way it sets forth the policy considerations in institutional factors that produce a particular law so the reader can make an independent judgement about its wisdom and perhaps its adaptability to other cultures

The Mythology of Modern Law

2002-09-11

the mythology of modern law is a radical reappraisal of the role of myth in modern society peter fitzpatrick uses the example of law as an integral category of modern social thought to challenge the claims of modernity which deny the relevance of myth to modern society

A Transnational Study of Law and Justice on TV

2016-11-17

this collection examines law and justice on television in different countries around the world it provides a benchmark for further study of the nature and extent of television coverage of justice in fictional reality and documentary forms it does this by drawing on empirical work from a range of scholars in different jurisdictions each chapter looks at the raw data of how much justice material viewers were able to access in the multi channel world of 2014 looking at three phases apprehension police adjudication lawyers and disposition prison punishment all of the authors indicate how television developed in their countries some have extensive public service channels mixed with private media channels financing ranges from advertising to programme sponsorship to licensing arrangements a few countries have mixtures of these each author also examines how tv justice has developed in their own particular jurisdiction readers will find interesting variations and thought provoking similarities there are a lot of television shows focussed on legal themes that are imported around the world the authors analyse these as well this book is a must read for anyone interested in law popular culture tv or justice and provides an important addition to the literature due to its grounding in empirical data

Law and the Philosophy of Language

2021

academic legal production when it focuses on the study of law generally grasps this concept on the basis of a reference to positive law and its practice this book differs clearly from these analyses and integrates the legal approach into the philosophy of normative language philosophical realism and pragmatism the aim is not only to place the examination of law in the immanence of its practice but also to take note of the fact that legal enunciation must be taken seriously in order to arrive at this analysis it is necessary to go beyond traditional perspectives and to base reflection on an investigation of the conditions for enunciating law in our democracies this analysis thus offers a renewal of the ethics inherent in the action of jurists and an original reflection on the role of certain legal tools such as concepts categories or provisions in this sense the work nourishes its originality not only by the transversality of its approach but also by the will to situate legal thought in concrete forms of its implementation the book will be essential reading for academics working in the areas of legal theory legal philosophy and constitutional theory

Popular Culture and Legal Pluralism

2016-06-17

drawing upon theories of critical legal pluralism and psychological theories of narrative identity this book argues for an understanding of popular culture as legal authority unmediated by translation into state law in narrating our identities we draw upon collective cultural narratives and our narrative nomos obligational selves become the nexus for law and popular culture as mutually constitutive discourse the author demonstrates the efficacy and desirability of applying a pluralist legal analysis to examine a much broader scope of subject matter than is possible through the restricted perspective of state law alone the study considers whether presumptively illegal acts might actually be instances of a

re imagined alternative legality and the concomitant implications as an illustrative example works of critical dystopia and the beliefs and behaviours of eco animal terrorists can be understood as shared narrative and normative commitments that constitute law just as fully as does the state when it legislates and adjudicates this book will be of great interest to academics and scholars of law and popular culture as well as those involved in interdisciplinary work in legal pluralism

The End of Law

2019

augustine posed two questions that go to the heart of the nature of law firstly what is the difference between a kingdom and a band of robbers secondly is an unjust law a law at all these two questions force us to consider whether law is simply a means of social control distinguished from a band of robbers only by its size or whether law is a social institution justified by its orientation towards justice the end of law applies augustine s questions to modern legal philosophy as well as offering a critical theory of natural law that draws on augustine s ideas mcilroy argues that such a critical natural law theory is realistic but not cynical about law s relationship to justice and to violence can diagnose ways in which law becomes deformed and pathological and indicates that law is a necessary but insufficient instrument for the pursuit of justice positioning an examination of augustine s reflections on law in the context of his broader thought mcilroy presents an alternative approach to natural law theory drawing from critical theory postmodern thought and political theologies in conversation with augustine this insightful book will be fascinating reading for law students and legal philosophers seeking to understand the perspective and commitments of natural law theory and the significance of augustine readers with an interest in interdisciplinary approaches to legal theory will also find this book a stimulating read

Comparative Law and Society

2012

comparative law and society part of the research handbooks in comparative law series is a pioneering volume that comprises 19 original essays written by expert authors from across the world this innovative handbook offers both a history of the field of comparative law and society and a thorough exploration of its methods disciplines and major issues presenting the most comprehensive look into this contemporary field to date

Kelsenian Legal Science and the Nature of Law

2018-07-28

this book critically examines the conception of legal science and the nature of law developed by hans kelsen it provides a single dedicated space for a range of established european scholars to engage with the influential work of this austrian jurist legal philosopher and political philosopher the introduction provides a thematization of the kelsenian notion of law as a legal science divided into six parts the chapter contributions feature distinct levels of analysis overall the structure of the book provides a sustained reflection upon central aspects of kelsenian legal science and the nature of law parts one and two examine the validity of the project of kelsenian legal science with particular reference to the social fact thesis the notion of a science of positive law and the specifically kelsenian concept of the basic norm grundnorm the next three parts engage in a critical analysis of the relationship of kelsenian legal science to constitutionalism practical reason and human rights the last part involves an examination of the continued pertinence of kelsenian legal science as a theory of the nature of law with a particular focus upon contemporary non positivist theories of law the conclusion discusses the increasing distance of contemporary theories of legal positivism from a kelsenian notion of legal science in its consideration of the nature of law

Introducción to the science of law

1968

this book modernizes the traditional tort law textbook by combining in depth analysis of policy with detailed discussion of legal doctrine

Tort Law

2016-06-06

this fascinating catalogue lists every law title published or distributed by little brown several entries have endorsements and annotations some of these by joseph story and other distinguished jurists are unique to this catalogue another interesting feature is a section by simon greenleaf entitled catalogue of a select law library that lists the books which are useful to every american lawyer in whatever state he may reside xxx xl based on the harvard law school reading list the titles are arranged by subject in parallel columns essential titles are in listed in one column useful but supplemental titles in the other it also includes an advertisement for harvard law school that describes its philosophy curriculum and fees

A Catalogue of Law Books, Published and for Sale by Charles C. Little and James Brown

1846

within limits the law allows for exceptions but how do we draw the line between a rule and its exceptions this is a long debated question with important practical consequences this book tackles this persistent puzzle by offering a new account of exceptions in the law and their role in legal reasoning it clarifies the relationship between legal defences and the allocation of burdens of proof discusses the structure of legal rules and the interplay of claims and answers in the legal process and sheds new light on the offence defence distinction in criminal law

Allowing for Exceptions

2015

what happens to legal thought when key terms society culture power justice identity become unsettled with the boundaries defining sociolegal scholarship undergoing a profound shift this book explores the intersections of law culture and identity sexuality race sports and the politics of policing are among the topics the authors take up as they examine how law both reproduces and challenges fundamental notions of order discipline and identity contributors rosemary j coombe u of toronto david m engel suny buffalo marjorie garber harvard u herman gray uc santa cruz rona tamiko halualani san josé state u david harvey cuny deb henderson yuen j hu o ucla s lily mendoza u of denver trish oberweis american justice institute paul a passavant hobart and william smith colleges lisa e sanchez u of illinois carl f stychin u of reading tom r tyler new york u christine a yalda

The Future of Law and Innovation in the Profession

2017

the anthology law in society explores how law shapes and is shaped by societies the selections stem from a view of law as an integral part of the wider socio political economy and one of its central institutions the introduction familiarizes students with definitions and explanations of criminal law explores the functions of law and provides an overview of the theories of law covered in the rest of the book the first section of the text examines sources of law natural law theory and the concept of positive or formal law the second section considers the origins of law in social structures and provides an overview of sociology of law the third section is devoted to sources of law and social control such as custom social norms and group processes the final section introduces critical theories of law and considers recent developments in alternative dispute resolution and restorative justice through reading law in society students come to recognize that as a society changes so too do its laws and legal system the book is well suited to courses in criminal justice and sociology as well as those in social or cultural anthropology

Law and Society

2016-01-10

foundations of law the polish perspective covers a range of issues forming the core of academic legal education in poland it provides basic knowledge about polish law and polish legal culture and constitutes an innovative introduction to the european approach to the concept of law legal reasoning recent challenges and the problems of legal development the book contains nineteen chapters the aim of each being to give an understandable presentation and discussion of a specific area of law the early chapters present an overview of the historical foundations of polish law and the polish theory and philosophy of law the following chapters address private public criminal and economic law as is applied in poland diagrams have been included to increase clarity of the text and some contributions are supplemented with case studies further reading in other languages recommended by the authors of individual chapters will facilitate a more in depth understanding of polish law and polish legal culture as a part of the tradition of civil law which is currently also a reflection of the legislative activity of the european union this publication is the joint work of members of the faculty of law and administration adam mickiewicz university poznań the faculty is one of the largest and best law schools in poland and has been consistently rated as one of the best in the country the faculty was established in its original form in 1919 at the same time as the university itself the faculty meets the requirements of contemporary trends in higher education by conducting high level research the academic staff recognize the demands of social processes and seek to create value for society science culture and the economy consequently the results of the research conducted at the university at local international and interdisciplinary level may be applied in practice

Of Law and Man

1971

this book provides a broad conspectus on the application of eu and international regulation of the food sector on english law it is aimed at practitioners and students of this vital and emerging branch of law which has become an important part of current political and legal debate it is written not just for lawyers as a statement of current law but is also aimed at all those involved or interested in the food industry who wish to familiarise themselves with how the law is applied practically in this jurisdiction the book commences with a short conceptual framework for the study of food law it then provides a comprehensive and up to date account of current english law explaining fully the detailed processes by which both international and national law and eu decision making have impacted upon most aspects of the production sale and consumption of food in england the book explains and assesses the operation of the current law by describing in detail the roles of government the food standards agency and local enforcement authorities in the making and enforcing of laws concerning food the work contains full outlines of the developments in the most significant areas of food law it concentrates specifically on topics such as food labelling and advertising quality and compositional requirements geographical food names genetic modification organic production animal welfare and also the role of law in tackling poor health obesity and diet related disease the book though primarily designed as a law text goes beyond the usual confines of such works it sets out to explain and describe the impact of successive food crises such as bse and the use of horsemeat in beef products on food safety and transparency requirements the book considers and assesses how the existing rules on the chemical and biological safety of food impact on our law and concludes with a review of the developing legal issues concerning the environmental impacts of current and proposed food law in particular the relationship between food law climate change and food security

Foundations of Law: The Polish Perspective

2021-06-09

this innovative handbook provides a comprehensive and truly global overview of the main approaches and themes within law and society scholarship or social legal studies a one volume introduction to academic resources and ideas that are relevant for today s debates on issues from reproductive justice to climate justice food security water conflicts artificial intelligence and global financial transactions this handbook is divided into two sections the first perspectives and approaches accessibly explains a variety of frameworks through which the relationship between law and society is addressed and understood with emphasis on contemporary perspectives that are relatively new to many socio legal scholars following the book s overall interest in social justice the entries in this section of the book show

how conceptual tools originate in and help to illuminate real world issues the second and largest section of the book 42 short well written pieces presents reflections on topics or areas concerning law justice and society that are inherently interdisciplinary and that are relevance to current but also classical struggles around justice informing readers about the lineage of ideas that are used or could be used today for research and activism the book attends to the full range of local national and transnational issues in law and society the authors were carefully chosen to achieve a diverse and non eurocentric view of socio legal studies this volume will be invaluable for law students those in inter disciplinary programs such as law and society justice studies and legal studies and those with interests in law but based in other social sciences it will also appeal to general readers interested in questions of justice and rights including activists and advocates around the world

Food Law

2015-03-26

since the classic contributions of weber and durkheim the sociology of law has raised key questions on the place of law in society drawing together both theoretical and empirical themes in this 2008 book mathieu deflem reviews the field s major accomplishments and reveals the value of the multiple ways in which sociologists study the social structures and processes of law he discusses both historical and contemporary issues from early theoretical foundations and the work of weber and durkheim through the contribution of sociological jurisprudence to the development of modern perspectives to clarify how sociologists study law chapters also look at the role of law in relation to the economy politics culture and the legal profession and aspects of law enforcement and the globalization of law this book will appeal to scholars and students of the sociology of law jurisprudence social and political theory and social and political philosophy

Sociology of Law

2008-02-28

morality and the nature of law explores the conceptual relationship between morality and the criteria that determine what counts as law in a given society the criteria of legal validity is it necessary condition for a legal system to include moral criteria of legal validity is it even possible for a legal system to have moral criteria of legal validity the book considers the views of natural law theorists ranging from blackstone to dworkin and rejects them arguing that it is not conceptually necessary that the criteria of legal validity include moral norms further it rejects the exclusive positivist view arguing instead that it is conceptually possible for the criteria of validity to include moral norms in the process of considering such questions this book considers raz s views concerning the nature of authority and shapiro s views about the guidance function of law which have been thought to repudiate the conceptual possibility of moral criteria of legal validity the book then articulates a thought experiment that shows that it is possible for a legal system to have such criteria and concludes with a chapter that argues that any legal system like that of the united states which affords final authority over the content of the law to judges who are fallible with respect to the requirements of morality is a legal system with purely source based criteria of validity

Legal Lore

derived from the renowned multi volume international encyclopaedia of laws this practical analysis of sports law in russia deals with the regulation of sports activity by both public authorities and private sports organizations the growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations sports law at a national or organizational level thus gains a growing relevance in comparative law the book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play however the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities this form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport it is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured this monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level lawyers representing parties with interests in russia will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law

Morality and the Nature of Law

2019

drawing on original research into explosive evidence which had been concealed for twenty five years this book offers a devastating critique of the official widgey inquiry into the massacre of innocent and unarmed civilians by british soldiers on bloody sunday it exposes the inquiry as a gross denial of justice and the rule of law expert analysis of the subordination of law to security policy in northern ireland reveals that the bloody sunday experience is an integral part of a sustained pattern belated prospects for a restoration of justice and the rule of law are found in the good friday peace agreement and the unprecedented establishment of a second tribunal of inquiry into bloody sunday

now also available as ebook [click here to buy and download your copy](#) now french law displays many characteristics that set it apart in a world class of its own it can be said to proceed from a number of independent streams that coexist despite apparent contradiction more than half of the 2283 articles of the famous code civile of 1804 remain unaltered yet french administrative judges jealously guard their prerogative to create their own public law and yet again since the 1974 law empowering the legislature to convene the constitutional council that judges the constitutionality of laws under the 1958 constitution the courts distinction between rules and fundamental principles has grown steadily a process that has been greatly accelerated since the 2003 law authorizing the government to simplify the law introduction to french law is a very practical book that makes clear sense out of the complex results

of the complex bodies of law that govern the most important fields of law and legal practice in france today seventeen chapters each written by a distinguished french legal scholar cover the following field in substantive and procedural detail with lucid explanations of french law in the following fields constitutional law european union law administrative law criminal law property law intellectual property law contract law tort liability family law inheritance law civil procedure company law competition law labour law tax law private international law a book that is both a useful guide for practitioners and a comprehensive survey of french law with no sacrifice of rationale or theory introduction to french law has no peers it is sure to spend more time in briefcases or on desks than on the shelf
