# **The Concept of an International Organization in International Law 2021**

this book asks what the legal definition of an international organization is by examining how they create particular legal systems that derive from international law and analysing the systems of governance in these organizations

## ***Time, History and International Law 2007***

this book examines theoretical and practical issues concerning the relationship between international law time and history problems relating to time and history are ever present in the work of international lawyers whether understood in terms of the role of historic practice in the doctrine of sources the application of the principle of inter temporal law in dispute settlement or in gaining a coherent insight into the role that was played by international law in past events but very little has been written about the various different ways in which international lawyers approach or understand the past and a view to exploring the dynamics of law

8/39

handbook of space law research handbooks in  
international law series elgar original reference  
~~engagement that this book has been compiled in~~  
its broadest sense it is possible to identify  
at least three different ways in which the  
relationship between international law and its  
history may be conceived the first is that of  
a history of international law written in  
narrative form and mapped out in terms of a  
teleology of origins development progress or  
renewal the second is that of history in  
international law and of the role history  
plays in arguments about law itself for  
example in the construction of customary  
international law the third way of  
understanding that relationship is in terms of  
international law in history of understanding  
how international law has been engaged in the  
creation of a history that in some senses  
stands outside the history of international  
law itself the essays in this collection make  
clear that each type of engagement with  
history and international law interweaves  
various different types of historical  
narrative pointing to the typically multi  
layered nature of internationallawyers  
engagement with the past and its importance in  
shaping the present and future of  
international law

# Politics and International Law

2022-06-09

international law shapes nearly every aspect of our lives it affects the food we eat the products we buy the rights we hold and the wars we fight yet international law is often believed to be the exclusive domain of well heeled professionals with years of legal training this text uses clear accessible writing and contemporary political examples to explain where international law comes from how actors decide whether to follow international law and how international law is upheld using legal and political tools suitable for undergraduate and graduate students this book is accessible to a wide audience and is written for anyone who wants to understand how global rules shape and transform international politics each chapter is framed by a case study that examines a current political issue such as the bombing of yemen or the use of chemical weapons in syria encouraging students to draw connections between theoretical concepts and real world situations the chapters are modular and self contained and each is paired with multiple supplemental cases edited and annotated judicial opinions accompanied by ready to use powerpoint slides and a testbank for instructors

# **A Treatise on International Law 1884**

while its importance in domestic law has long been acknowledged transparency has until now remained largely unexplored in international law this study of transparency issues in key areas such as international economic law environmental law human rights law and humanitarian law brings together new and important insights on this pressing issue contributors explore the framing and content of transparency in their respective fields with regard to proceedings institutions law making processes and legal culture and a selection of cross cutting essays completes the study by examining transparency in international law making and adjudication

## ***Transparency in International Law 2013-11-07***

this book revisits the theory of the sources of international law from the perspective of formalism it critically analyses the handbook of formalism construed as a theory of space law ascertainment as a means of distinguishing research law and non law the theory of handbooks in formalism is re evaluated against the backdrop of the growing acceptance by international law series elgar original reference

handbook of space law research handbooks in  
international law series elgar original reference  
~~legal theorists of the blurring of the lines~~  
between law and non law at the same time the  
book acknowledges that much international  
normative activity nowadays takes place  
outside the ambit of traditional international  
law and that only a limited part of the  
exercise of public authority at the  
international level results in the creation of  
international legal rules the theory of  
ascertainment that the book puts forward  
attempts to dispel some of the illusions of  
formalism that accompany the traditional  
sources of international law it also sheds  
light on the tendency of scholars theorists  
and advocates to deformatize the  
identification of international legal rules  
with a view to expanding international law the  
book seeks to revitalize and refresh the  
formal identification of rules by engaging  
with some tenets of the postmodern critique of  
formalism as a result the book not only  
grappling with the practice of law making at  
the international level but it also offers  
broad theoretical insights on international  
law dealing with the main schools of thought  
in legal theory positivism naturalism legal  
realism policy oriented jurisprudence and  
postmodernism this paperback edition features  
the author's discussion of this book on the  
ejit talk blog

## **1836**

grundthese des buches ist dass ein  
paradigmenwechsel stattgefunden hat der den  
menschen zum primaren volkerrechtssubjekt  
macht diese these wird vor dem hintergrund der  
ideengeschichte und dogmatik der  
volkerrechtspersonlichkeit des menschen  
entfaltet und auf die rechtspraxis in  
zahlreichen teilrechtsgebieten angefangen vom  
recht der internationalen verantwortung uber  
das recht des bewaffneten konflikts das recht  
der katastrophenhilfe das internationale  
strafrecht das internationale umweltrecht das  
konsularrecht und das recht des diplomatischen  
schutzes das internationale arbeitsrecht das  
fluchtlingsrecht bis hin zum internationalen  
investitionsschutzrecht gestutzt der neue  
volkerrechtsstatus des menschen wird mit dem  
begriff des subjektiven internationalen rechts  
auf den punkt gebracht

## **The Structure and Process of** **International Law 1986-02-24**

this clearly written understanding treatise is  
designed to explain why international law is  
why it exists and the basic subjects it covers  
the law of treaties is given particular  
reference

handbook of space law research handbooks in international law series elgar original reference  
~~attention chiefly because of the increasing~~  
importance of the treaty in international life the number of treaties has mushroomed since the second world war and many of these agreements include over 100 states as parties because of their number and the breadth of their coverage treaties are thus the main form of international legislation but since they are also contractual in character and since many multilateral treaties allow states to place conditions on their acceptance of them the law governing treaties is necessarily more complex than if they were the exact equivalent of national legislation understanding international law also provides introductory coverage of topics of current relevance such as terrorism international criminal law use and applicability of international law in united states courts and the law governing the use of military force

## Formalism and the Sources of International Law 2013-05-23

this provides a comprehensive approach and includes both literal translations and definitions with several useful innovations included is not only the modern english research 2012-05-30 14/39 but also the classical international restored one each entry is also cross law series elgar original reference

## ***Jenseits der Menschenrechte***

**2014-04-09**

straits are peripheral formations in the study of geography but have long been a source of controversy in international relations they connect separate seas and divide the territory of states this geographical fact invites legal disputes over international boundary drawing request for passage by foreign ships assertion of territorial control over the waters forming straits and the basis for a regime generally accepted as law in our times this is a thorough and well documented book which combines elements of history geography international shipping and the law of the sea it asks the central question what exactly is the current law governing this area and also goes on to consider the concept of international straits the distinction between existing treaty based regimes and the general regime and the special characteristics of straits that separate them from similar arms of the sea in terms of law in answering these questions the author takes us back to the first regime for international straits in 1949 the practice of the present day international law

## ***Chapters on the Principles of International Law 1894***

set in the context of growing  
interdisciplinarity in legal research the  
political economy of international law a  
european perspective provides a much needed  
systematic and coherent review of the  
interactions between political economy and  
international law the contributors reflect the  
need felt by international lawyers to open  
their traditional frontiers to insights from  
other disciplines and political economy in  
particular the methodological approach of the  
book is to take the traditional list of topics  
for a general treatise of international law  
and to systematically incorporate insights  
from political economy to each students and  
scholars of political economy and  
international law will find the topics

discussed to be of great interest to their  
work this book will also provide valuable  
insights for economists lawyers and policy  
makers contributors include e benveniste

## Understanding International Law 2006

neutrality is a legal relationship between a belligerent state and a state not participating in a war namely a neutral state the law of neutrality is a body of rules and principles that regulates the legal relations of neutrality the law of neutrality obliges neutral states to treat all belligerent states impartially and to abstain from providing military and other assistance to belligerents the law of neutrality is a branch of international law that developed in the nineteenth century when international law allowed unlimited freedom of sovereign states to resort to war thus there has been much debate as to whether such a branch of law remains valid in modern international law which generally prohibits war and the use of force by states while there has been much debate regarding the current status of neutrality in modern international law there is a general agreement among scholars as to the basic features of the traditional law of neutrality wani challenges the conventional understanding of the traditional neutrality by

understanding will provide a fundamentally new  
framework for discussing the current status of  
neutrality in modern international law

## Guide to Latin in International Law 2009

today international law is everywhere wars are  
fought and opposed in its name it is invoked  
to claim rights and to challenge them to  
indict or support political leaders to  
distribute resources and to expand or limit  
the powers of domestic and international  
institutions international law is part of the  
way political and economic power is used  
critiqued and sometimes limited despite its  
claim for neutrality and impartiality it is  
implicit in what is just as well as what is  
unjust in the world to understand its  
operation requires shedding its ideological  
spell and examining it with a cold eye who are  
its winners and who are its losers how if at  
all can it be used to make a better or a less  
unjust world in this collection of essays  
professor martti koskenniemi a well known

## **A Digest of International Law... 2019-04-03**

this title explores the role of third parties  
in international legal contexts

## ***The Sources of International Law 1998***

universalising international law is one of the  
most urgent tasks awaiting those who wish to  
advance the discipline though all the world  
acknowledges its universal nature it has long  
been confined in a largely monocultural mould  
indeed a tendency is sometimes discernible for  
international law to be compartmentalised and  
to function within a close cabinet of  
technical rules little known to those outside  
the ranks of specialists this volume looks  
initially at some general aspects of  
universalisation it thereafter adopts a  
universalist approach to some of the sources  
of international law and it deals with peace law  
the bedrock of international law which research  
likewise requires a universalist approach  
is hoped that these studies will highlight the  
imperative need that now exists for extending

~~the conceptual framework of international law~~  
thereby buttressing its moral authority and  
widening its appeal at a time when universal  
acceptance of international law is one of the  
most pressing demands of the international  
system

## **International Law Aspects of the European Union 1996**

offering a nuanced and realistic account of  
the authority of international law this book  
discusses whether international law is obeyed  
and the type of duties it imposes on the state  
through a review of present accounts ranging  
from the mainstream to extra disciplinary the  
extent of authority is explored

## **Indigenous Peoples in International Law 2019-08-22**

this book takes the reader on a sweeping tour  
of the international legal field to reveal  
some of the patterns of difference dominance  
and disruption that belie international handbook of  
claim to universality pulling back the space law  
on the divisible college of international research  
lawyers anthea roberts shows how handbooks in  
2012-05-30 27/39 international  
lawyers in different states regions and  
geopolitical groupings are often subject to  
elgar original  
reference

handbook of space law research handbooks in  
international law series elgar original reference  
~~distinct incoming influences and outgoing~~

spheres of influence in ways that reflect and  
reinforce differences in how they understand  
and approach international law these divisions  
manifest themselves in contemporary  
controversies such as debates about crimea and  
the south china sea not all approaches to  
international law are created equal however  
using case studies and visual representations  
the author demonstrates how actors and  
materials from some states and groups have  
come to dominate certain transnational flows  
and forums in ways that make them  
disproportionately influential in constructing  
the international this point holds true for  
western actors materials and approaches in  
general and for anglo american and sometimes  
french ones in particular however these  
patterns are set for disruption as the world  
moves past an era of western dominance and  
toward greater multipolarity it is imperative  
for international lawyers to understand the  
perspectives and approaches of those coming  
from diverse backgrounds by taking readers on  
a comparative tour of different international  
law academies and textbooks the author  
encourages them to see the world through the  
eyes of others an essential skill in this fast  
changing world of shifting power dynamics and  
rising nationalism

questions encourage students to apply their  
knowledge to addressing specific problems  
within the context of the subject and  
carefully selected recommended reading lists  
guide students wider research and enable them  
to broaden and consolidate their learning  
online resources international law offers a  
range of freely available materials to support  
lecturers and students in their studies these  
resources include short podcasts introducing  
the core topics covered advice on answering  
the questions for discussion at the end of  
each chapter links to other international law  
resources

## **Duality of Responsibility in International Law 2008-03-04**

essential texts in international law draws  
together the most important documents needed  
for the study of international law in a  
uniquely handy user friendly format unlike  
most other texts of this nature the documents  
are organised according to subject matter for  
ease of reference united nations and handbook of  
international peace and security state space law  
transactions state immunity state research

~~the environment and international criminal law~~  
each document has been allocated a unique  
number which facilitates navigation for use in  
the classroom and is complemented by a  
detailed subject index key features concise  
but authoritative selection of the essential  
texts makes this focussed and user friendly  
intuitive organisation of documents by subject  
unique reference number for each document  
facilitates navigation small handy reference  
format for carrying to class

## **Legitimacy in International Law 1993**

since the creation of the united nations in  
1945 international law has sought to configure  
itself as a universal system yet despite the  
best efforts of international institutions  
scholars and others to assert the universal  
application of international law its relevance  
and applicability has been influenced if not  
directed by political power today the decline  
of the west and ascent of china and india  
pose particular challenges for international  
law and institutions the international system  
appears to be moving towards multipolarity  
with various sites of power competing to exert  
influence in the world today with contributors  
from a variety of countries providing  
handbook of space law research

~~perspectives from the disciplines of~~  
international law and international relations  
theory international law in a multipolar world  
addresses the implications that multipolarity  
poses for the international legal system  
contributors including jean d aspremont jörg  
kammerhofer alexander orakhelashvili christian  
pippan and nigel white explore issues such as  
the use of force governance and democracy  
regionalism and the relevance of the united  
nations in a multipolar world while  
considering the overarching theme of the  
relationship between power and law  
international law in a multipolar world is of  
particular interest to academics and students  
of public international law international  
relations theory and international politics

## ***Third Parties in International Law 2004-04-01***

two fish are swimming in a pond do you know  
what the fish asks his friend no tell me i was  
talking to a frog the other day and he told me  
that we are surrounded by water his friend  
looks at him with great scepticism what  
s that show me some water this book is an  
attempt to stir up the water the two fish are  
2012-05-30 in it analyses 32/39 the different  
theoretical approaches to international law series  
elgar original  
reference

handbook of space law research handbooks in  
~~international law series elgar original reference~~  
~~and invites readers to engage with legal~~  
thinking in order to familiarize ourselves  
with the water all around us of which we  
hardly have any perception international  
lawyers and students of international law  
often find themselves focused on the practice  
of the law rather than the underlying theory  
the main aim of this book is to provide  
interested scholars practitioners graduate and  
postgraduate students in international law and  
other disciplines with an introduction to  
various international legal theories their  
genealogies and critique by providing an  
analytical approach to international legal  
theory the book encourages readers to sharpen  
their sensitivity to these different  
methodologies and to consider how  
the presuppositions behind each theory affect  
analysis research and practice in  
international law theories of international  
law is intended to assist students scholars  
and practitioners in reflecting more generally  
how knowledge is formed in the field
