## **Cross-Linguistic Studies of Imposters and Pronominal Agreement *2014-03-04***

imposters are third person dps that are used to refer to the speaker writer or addressee such as i your humble servant finds the time before our next encounter very long ii this reporter thinks that the current developments are extraordinary iii daddy will be back before too long iv the present author finds the logic of the reply faulty this volume explores verbal and pronominal agreement with imposters from a cross linguistic perspective the central questions for any given language are a how do singular and plural imposters agree with the verb b when a pronoun has an imposter antecedent what are the phi features of the pronoun the volume reveals a remarkable degree of variation in the answers to these questions but also reveals some underlying generalizations the contributions describe imposters in bangla spanish albanian indonesian italian french romanian mandarin and icelandic

## **THE SUN CREATION THEORY presents the Creation of the Universe *2014-08-28***

the sun creation theory presents the creation of the universe will introduce a new and alternative scientific view for the genesis of the universe which is currently stated as the big bang theory with its fiery explosion of a primordial atom instead the sun creation theory depicts that the beginning of the cosmos was achieved with the creation of the absolute first sun of the universe this is considered the most important event of all time from which all else will follow also presented is a totally new concept that suns birth suns suns birth planets and planets birth moons all accomplished in a very natural sequence of events the long debated accretion theory for these formations can now be set aside at last a logical explanation can be given as to why all planets are beholding to their parent sun and why moons are beholding to their parent planet finally the author states that while studying the subject of light as it pertains to radiation from the trillions upon trillions of suns in the universe it is my belief that i may have inadvertently stumbled onto the cause of dark matter in the universe a totally new theory is being outlined which is the first of its kind it will require much new thinking by the scientific community before a decision can be made as to its merits this is the way of science
