very simple and well known songs and melodies with easy rhythms you can begin to play in just two steps first you
will play using circles that contain either a number without having to consider note duration key or time signatures
these numbers correspond to those on the keys of your tongue drum so you just need to follow the numbers you can
get an idea of how the song might be played by listening to the youtube clip of the same song which you can access
with the qr code below each song then if you find that you can play the song with more confidence you can try using
the second page of the same song with the actual notes there the same melody is written in a traditional manner with
all the necessary musical symbols however we simplified the melodies in this step as well transposing the most songs
for one octave leaving the numbers under the notes we hope that playing these simple melodies will bring you a
