backgrounds including neurology internal medicine
anesthesiology rehabilitation medicine family
medicine psychiatry dentistry and others a great
deal of research is being done in headache
medicine and as a result the field is one which is
growing rapidly in every way interestingly most
patients with headache are not being treated by
specialists in headache medicine in large part
because of the vast numbers of patients requiring
medical attention for headache disorders and the
relatively small number of bona fide specialists
comprehensive review of headache medicine is the
first concise manual aimed at the bulk of skilled
practitioners taking care of the major share of
headache sufferers who wish to understand the
important concepts of diagnosis treatment and
prognosis in this complex field the organization
of this book reflects the curriculum for headache
medicine designed by the united council for
neurologic subspecialties ucns which is the
organization responsible for accrediting headache
medicine training programs and accrediting
individual practitioners the content of the book
also mirrors that of the ucns board examination
the book consists of 4 parts part 1 headache
medicine basic science part 2 diagnosis of primary
headache disorders part 3 diagnosis of secondary
headache disorders and part 4 headache treatment
each chapter is written in a concise user friendly
way while simultaneously presenting cutting edge
information about the diagnosis and treatment of
headache each chapter also includes key tables and
illustrations relevant to the study of headache
medicine and review questions as a study resource
at the end of the chapter the editor dr morris
levin is a charter diplomat of the ucns hm
examination and has directed board review courses
for the american headache society and headache
cooperative of new england all of the eligible
chapter authors have taken and passed this
