Vegan Boards 2021-03-02 the challenge
corporate boards as fiduciaries are
responsible for delivering maximum value and
the highest standards of care the persistent
misconception that boards should be driven
primarily by shareholder value will soon be an
outdated one and boards that continue to apply
narrow interpretations of value and care are
unlikely to survive the opportunity this book
reveals a future proofing opportunity for
courageous boards to redefine value and care

for employees consumers communities society the environment and shareholders there is no point in trying to reframe value and care for a wider range of audiences if boards don't have the right capabilities and attitudes themselves the solution boards that dare invites boards to challenge shortcomings in their own ability understanding and courage the book shows how boards embracing this new kind of broadened fiduciary dynamism will become future proof and realize sustained shareholder value as an output the research based on the authors first hand experiences as well as their own research and interviews with board members and chairs of international private public and not for profit organizations this highly practical and cutting edge book delivers the necessary solutions on how to future proof today's boards
