bob pittman and aol time warner jean marie messier and vivendi jill barad and mattel dennis kozlowski and tyco it s an all too common scenario a great company breaks from the pack the analysts are in love the smiling ceo appears on the cover of fortune two years later the company is in flames the pension plan is bleeding the stock is worthless what goes wrong in these cases usually it seems that top management made some incredibly stupid mistakes but the people responsible are almost always remarkably intelligent and usually have terrific track records just as puzzling as the fact that brilliant managers can make bad mistakes is the way they so often magnify the damage once a company has made a serious mis step it often seems as though it can t do anything right how does this happen instead of rectifying their mistakes why do business leaders regularly make them worse to answer these questions sydney finkelstein has carried out the largest research project ever devoted to corporate mistakes and failures in why smart executives fail he and his research team uncover with startling clarity and unassailable documentation the causes regularly responsible for major business breakdowns he relates the stories of great business disasters and demonstrates that there are specific identifiable ways in which many businesses regularly make themselves vulnerable to failure the result is a truly indispensable practical must read book that explains the mechanics of business failure how to avoid them and what to do if they happen

Why Leaders Fail and What It Teaches Us About Leadership

2023-02-23

in why leaders fail and what it teaches us about leadership willem fourie helps us make sense of leaders failures and why our expectation of leadership infallibility is misguided whereas some leadership failures can be rectified others lead to the failure of teams organisations or institutions using cutting edge research and reflective practices fourie explores leaders failure at these personal interpersonal group organisational levels and beyond he explores five factors that cause leaders to fail ignorance of personal weaknesses overconfidence in their influence over others destructive bias bad fit in their organisation misjudged risk the author shows that our heroic bias the expectation that leaders should be exceptional charismatic individuals with a higher level of agency than other people in many contexts increases the chances of leaders failing the book offers readers with the tools to understand and respond to leader failure distilled into seven lessons for post heroic leaders this is an ideal book for students and researchers in leadership leadership development and management as well as professionals seeking to enhance their leadership skills

How Big Banks Fail and What to Do about It

2010-10-18

a leading finance expert explains how and why big banks fail and what can be done to prevent it dealer banks that is large banks that deal in securities and derivatives such as j p morgan and goldman sachs are of a size and complexity that sharply distinguish them from typical commercial banks when they fail as we saw in the global financial crisis they pose significant risks to our financial system and the world economy how big banks fail and what to do about it examines how these banks collapse and how we can prevent the need to bail them out in sharp clinical detail darrell duffie walks readers step by step through the mechanics of large bank failures he identifies where the cracks first appear when a dealer bank is weakened by severe trading losses and demonstrates how the bank s relationships with its customers and business partners abruptly change when its solvency is threatened as others seek to reduce their exposure to the dealer bank the bank is forced to signal its strength by using up its slim stock of remaining liquid capital duffie shows how the key mechanisms in a dealer bank s collapse such as lehman brothers failure in 2008 derive from special institutional frameworks and regulations that influence the flight of short term secured creditors hedge fund clients derivatives counterparties and most devastatingly the loss of clearing and settlement services how big banks fail and what to do about it reveals why today s regulatory and institutional frameworks for mitigating large bank failures don t address the special risks to our financial system that are posed by dealer banks and outlines the improvements in regulations and market institutions that are needed to address these systemic risks

Meltdown

2019-03-19

winner of the 2019 national business book award a groundbreaking take on how complexity causes failure in all kinds of modern systems from social media to air travel this practical and entertaining book reveals how we can prevent meltdowns in business and life a crash on the washington d c metro system an accidental overdose in a state of the art hospital an overcooked holiday meal at first glance these disasters seem to have little in common but surprising new research shows that all these events and the myriad failures that dominate headlines every day share similar causes by understanding what lies behind these failures we can design better systems make our teams more productive and transform how we make decisions at work and at home weaving together cutting edge social science with riveting stories that take us from the frontlines of the volkswagen scandal to backstage at the oscars and from deep beneath the gulf of mexico to the top of mount everest chris clearfield and andr s tilcsik explain how the increasing complexity of our systems creates conditions ripe for failure and why our brains and teams can't keep up they highlight the paradox of progress though modern systems have given us new capabilities they've become vulnerable to surprising meltdowns and even to corruption and misconduct but meltdown isn't just about failure it's about solutions whether you're managing a team or the chaos of your family's morning routine it reveals why ugly designs make us safer how a five minute exercise can prevent billion dollar catastrophes why teams with fewer experts are better at managing risk and why diversity is one of our best safeguards against failure the result is an eye opening empowering and entirely original book one that will change the way you see our complex world and your own place in it

Why We Fail

when i think of failure i like to think of it as a hurdle on a race track it is up ahead of myself the runner and i need to calculate when to change my direction upwards is my hurdle failure the end of the road no it s just an obstacle in the way i need to overcome in order to cross the finish line that explains what this book is about in a nut shell benjamin a chapin failure is a part of every great success we have in life instead of having fear we need to embrace failure firmly look for the signs and learn every time we face it failure is not a burden and offers incredible value if we know how to approach it this book was written to help people embrace that concept at the end of this book you will have a firm understanding of failure and how to use it to your benefit what you will learn control the fears of failure in your mind discover what failure looks like and how to handle it learn from the failures of the past experience the joy of helping others through their own failures does failure hold you back do you dwell on thoughts of failure in the areas you are trying to progress in do you attempt to avoid failure at all costs does it seem you just keep failing at every turn do you want to better your life do you have a desire to help others through their own failures if you answered yes to some or all of these questions you will benefit from this book failure will happen in life with everything we attempt to do at some point you are going to fail and you have to recognize that failure when it happens so you can pivot your direction and continue upwards toward your success

Why Presidents Fail And How They Can Succeed Again

2016-07-26

failure should not be an option in the presidency but for too long it has been the norm from the botched attempt to rescue the u s diplomats held hostage by iran in 1980 under president jimmy carter and the missed intelligence on al qaeda before 9 11 under george w bush to most recently the computer meltdown that marked the arrival of health care reform under barack obama the american presidency has been a profile in failure in why presidents fail and how they can succeed again elaine kamarck surveys these and other recent presidential failures to understand why americans have lost faith in their leaders and how they can get it back kamarck argues that presidents today spend too much time talking and not enough time governing and that they have allowed themselves to become more and more distant from the federal bureaucracy that is supposed to implement policy after decades of imperial and rhetorical presidencies we are in need of a managerial president this white house insider and former harvard academic explains the difficulties of governing in our modern political landscape and offers examples and recommendations of how our next president can not only recreate faith in leadership but also run a competent successful administration

Dare to Fail

2007

in the international bestseller dare to fail author billi p s lim defines success as a day today progressive journey towards a predetermined worthwhile goal we need both success failure to find our rainbow the ability to grasp this rainbow during the journey is true success failure often talks in a dump language people can t understand it easily other wise the same mistakes can t be repeated the calm which puts us to sleep is more fatal than the storm which keeps us awake nothing worthwhile is achieved without a struggle other wise every body will achieve it if it is so easy what we are today at this time keeps changing every minute every second past failures should be the guidelines for future success until you try you don t know what you can t do education the aim of education must be to teach a person how to bring out the best in him and to develop himself to his greatest potential but the end now a days seems to be only for the sake of getting a job we sow our character and we reap our destiny expansion of we reap what we sow there is no right way to do a wrong thing if one continue to do what he is doing he will always get what he already got successful people may fail but the important thing is that they never give up it is the ability to climb up again after the fall that matters nothing in the world can take its place talent will not genius will not education will not persistence and determination alone are omnipotent people don t fail but they quit in the middle without deviation progress is not possible for every problem under the sun there is a remedy or there is none if there is a remedy try it otherwise why worry about it the sweet smell of success has little meaning without failure he who is a bankrupt is not the one who doesn t have a cent in his pocket but the person who doesn t have a dream failure doesn t god has abandoned you it means god has batter idea failure is never final it is impossible to live with a person who has not tasted failure nobody learns from success but learns from failures and mistakes the author is from a very poor family consisting of 14 children he has also mentioned his personal problems and how he over come it on the whole this is the book for those who hate to fail
