New Perspectives on the Transnational Right

2016-06-08

florence in the early modern world offers new perspectives on this important city by exploring the broader global context of the fifteenth and sixteenth centuries within which the experience of florence remains unique by exploring the city's relationship to its close and distant neighbours this collection of interdisciplinary essays reveals the transnational history of florence the chapters orient the lenses of the most recent historiographical turns perfected in studies on venice rome bologna naples and elsewhere towards florence new techniques such as digital mapping alongside new comparisons of architectural theory and merchants in
state collapse in south eastern europe new perspectives on yugoslavia's disintegration central european studies

eurasia provide the latest perspectives about florence's cultural and political importance before during and after the renaissance from florentine merchants in egypt and india through actual and idealized military ambitions in the sixteenth century mediterranean to tuscan humanists in late medieval england the contributors to this interdisciplinary volume reveal the connections florence held to early modern cities across the globe this book steers away from the historical narrative of an insular renaissance europe and instead identifies the significance of other global influences by using florence as a case study to trace these connections this volume of essays provides essential reading for students and scholars of early modern cities and the renaissance

Breaking Boundaries

1997

this collection of essays by a variety of scholars compiled to celebrate the silver anniversary of the international journal of children's rights builds on work already in the literature to reveal where we are now at and how the law concerned with children is reacting to new developments new or relatively new subject matter is explored such as film classification intersex genital mutilation the right to development rights within the context of sport are given an airing we are offered new perspectives on discipline on the significance of rights flowing downhill on the so called six general principles the uses to which the crc is put in legal reasoning in some legal systems is critically examined though not intended as an audit the collection offers a fascinating image of where the field of children's rights is at now the progress that has been made and what issues will require work in the future

New Perspectives On Bullying

2008-10-01
