household heterogeneity in terms of observable and non observable determinants of these outcomes the paper also compares living standards between tea and non tea households three main findings emerge from the analysis productivity outcomes are generally better in the private sector than in the public sector male headed households outperform female headed households along all dimensions considered here and tea households tend to be better off than non tea households

Journal of the Royal Society of Arts

1874

the little tea book compiled by a gray after all tea is the drink domestically and socially it is the beverage of the world there may be those who will come forward with their figures to prove that other fruits of the soil agriculturally and commercially are more important perhaps they are right when quoting statistics but what other product can compare with tea in the high regard in which it has always been held by writers whose standing in literature and recognized good taste in other walks cannot be questioned a glance through this book will show that the spirit of the tea beverage is one of peace comfort and refinement as these qualities are all associated with the ways of women it is to them therefore the real rulers of the world that tea owes its prestige and vogue further peeps through these pages prove this to be true for nearly all the allusions and references to the beverage by male writers reveal the womanly influence that tea imparts but this is not all the side lights of history customs manners and modes of living which tea plays in the life of all nations will be found entertaining and instructive linked with the fine feminine atmosphere which pervades the drinking of the beverage everywhere a leaf which can combine so much deserves at least a little human hearing for its long list of virtues for its peaceful walks talks tales tattle frills and fancies which go to make up this tribute to the cup that cheers but not inebriates
