islam is a burning topic in modern scholarship and contemporary world affairs
it is a subject poorly understood by western observers and in this book
professor montgomery watt takes a significant step towards its
demystification montgomery watt examines the crucial questions of traditional
world view and self image which dominate the thinking of muslims today this
traditional self image causes them to perceive world events differently

western modernism and restricts muslims to a peripheral role in world affairs
in a scholarly and incisive way he traces this harmful image to its origins
in the medieval period and then to the traumatic exposure of muslims to the
west in modern times he argues that muslim culture is suffering from a
dangerous introspection and in his closing chapters presents a constructive
criticism of contemporary islam aimed at contributing to a truer more

Islam, Fundamentalism, and the Betrayal of Tradition 2005-01-01

what is fundamentalism and what does it really amount to how do
uncompromising counter cultural movements make ordinary people behave in
extraordinary ways arguing that an adherence to scriptural literalism and
biblical inerrancy is at root a reaction to modernism these are among the key
questions with which this timely book grapples but it goes further other
studies have concentrated above all on christian and islamic fundamentalism
this volume while exploring the origins and articulations of the
fundamentalist mindset addresses the subject from the comparative perspective
of different religions including judaism and hinduism it is innovative in yet
another respect contending that notions of certainty and infallibility are
not just a religious phenomenon the book argues that fundamentalism can be
detected also in science when scientists use scientific authority to
pronounce on areas outside their competence with contributors who include
karen armstrong diarmaid macculloch malise ruthven and ed husain this is a
bold and incisive assessment of a crucial yet often oversimplified topic
